

# Pentax SMC Takumar 28mm f3.5

Filter Size: 58mm  
Lens mount: m42  
Aperture Range: f3.5-f22  
Close Focus: n/a  
Macro Ratio: n/a  
Year Introduced: 1971  
Tested with... Eos T2i

The SMC Takumar 28mm f 3.5 is sharp and contrasty. Color is good. Flare is low but direct sunlight causes a noticeable loss of contrast. Use a lens hood. The focus ring has a short travel from close focus to infinity. Focusing past 30 feet is difficult to nail.
